COMMENTS:

In an age of "disaffected youth", community service provides an opportunity for South Pasadena High School students to help people within a community and enhance the life of the community.

Please comment below on how the service performed by this student affected the target population and how that service "enhanced the life of the community".

Also, we are interested in hearing any specific observations, positive or negative evaluations, and/or suggestions you might have for the volunteer (you may continue on the back). Thank you.
